BE PROUD OF YOUR JOB

Government workers always have come in for their share of criticism, most of which is unwarranted.

REAers are working in a wonderful program, one that not only is making life easier for millions of farmers by providing them with electric power and telephones, but also is making a big contribution to the Nation's defense effort.

The REA staff is doing a fine and worthwhile job, one that the farmers of this country will never forget.

Be proud of your job!
